GET YOUR MONEY READY FOR TOMORROW

The **future** is exciting. There's a world of opportunity available and the sky's the limit! But before you get too excited, first you have to set a financial plan. Many of life's big adventures cost money. This means setting financial goals to help you save for the future.

THERE ARE THREE TYPES OF GOALS:

1 SHORT-TERM GOALS
Things you want to do in the next three months.
(i.e. buy a new video game or shoes)

2 MID-TERM GOALS
Things you want to do between three months and one year. (i.e. buy a phone or take a trip)

3 LONG-TERM GOALS
Things you want to do in more than a year.
(i.e. go to college or buy a car)

Once you figure out what your goals are, you can determine the best way to start saving your money. Where should you begin? We thought you'd never ask! Check out page two of this newsletter and read "**How to Write Financial Goals**".

"I have reached a place in my life where I need to sit down and say, 'Well, what do I do? What's best for me?' I need to look into options for the future." ~ Michael Phelps

HOW TO WRITE FINANCIAL GOALS

(AKA, your **road map** to future riches)

How do you begin to save money for your future? Write a goal. It's actually pretty simple to do.

HERE'S AN EXAMPLE OF A GOAL:

- Your Goal:** I want to go to prom
Cost: \$300 for clothes and ticket
Timeframe: Need to buy ticket in 6 months
Challenge: Save \$50 a month from my paycheck.

NOW IT'S YOUR TURN. WRITE A GOAL BELOW:

Your Goal: _____

Cost: _____

Timeframe: _____

Challenge: _____

You can write goals for anything you want to do in the future. Whether it's saving for something big or small, writing a goal is the best way to take the first step.
