THE BUILD YOUR BUSINESS ISSUE

# HOW TO BECOME AN ENTREPRENEUR IN THREE STEPS

Young people across the country are creating their own jobs, starting businesses, and launching start-ups. But being a businessperson takes more than just having a good idea. At some point, you're going to need money to get things rolling and build your business.

### Here's how:

# **★ START SAVING**

From the moment you think you might start a business, begin putting money aside in a savings account—you're going to need it.

While every business has its own unique expenses, most businesses never get off the ground due to lack of money. Don't be that business.

### **★** GET CREDIT

Expanding and growing your business takes cash. Some options include getting investors (ask friends or family members first), or applying for a loan from a financial institution.

**PRO TIP:** WHEN YOU APPLY FOR A LOAN, YOU'LL NEED YOUR PARENTS TO CO-SIGN.

## **BUILD CREDIT**

Establishing and maintaining a positive credit history is critical to getting money in the future. A negative history can make it difficult to get the money your business needs.

Pay bills on time and regularly check your credit report. Your credit history is your reputation—and the financial key to your future.

DID YOU KNOW?

OF YOUNG PEOPLE PLAN TO BECOME ENTREPRENEURS\*
