UNIT ONE: CASH FLOW Budget and plan for your financial life.

Exercise 2B. Saving for Your Goals

To reach your goals, you'll need to save money. The easiest way to do this is to consider saving money an expense that you need to pay every month. So exactly how much do you need to save each month to accomplish your goals? Use this chart to find out.

Your Goals	Total Amount Needed	Amount to Save (monthly)
New laptop (in 6 months)	\$1,000	\$167
Total needed for goals	\$	\$
